INTERNATIONAL JOURNAL OF GEOMATE

(Geotechnique, Construction Materials & Environment)

ISSN: 2186-2982(Print), 2186-2990(Online)

Founded in 2011, *The "International Journal of GEOMATE"* is a Scientific Journal of the GEOMATE International Society that encompasses a broad area in Geotechnique, Construction Materials and Environment. The key objective of this journal is to promote interdisciplinary research from various regions of the globe. The editorial board of the journal is comprised of extensively qualified researchers, academicians, scientists from Japan and other countries of the world. It is peer-reviewed journal that is published quarterly. All articles published in this journal are available on line. Contributors may download the manuscript preparation template for submitting paper or contact to the Editors-in-Chief [geomate@gi-j.com].

Aims and Scopes:

The journal aims to become an efficient mean of publishing and distributing high quality information from the researchers, scientists and engineers. The main scopes are as follows:

- Advances in Composite Materials
- Computational Mechanics
- Foundation and Retaining Walls
- Slope Stability
- Soil Dynamics
- Soil-Structure Interaction
- Pavement Technology
- Tunnels and Anchors
- Site Investigation and Rehabilitation
- Ecology and Land Development
- Water Resources Planning
- Environmental Management
- Earthquake and Tsunami Issues
- Safety and Reliability
- Geo-Hazard Mitigation
- Case History and Practical Experience
- Others

Review Policy:

- The paper which meets the editorial criteria will be assigned to at least two anonymous reviewers for peer-review.
- Authors may recommend some reviewers - however, Editors are entitled to consider them or not.
- The Editorial Board consists of an outstanding group that is responsible for the review process of the submitted manuscripts and will guarantee the quality of the publication.
- The manuscript will be published as soon as it is accepted and all the modifications recommended by the reviewers are made.
- The review procedure is as strict as in the most prestigious journals, but publication time is minimized.
- Based on the reviewers' comments, the Editors will make a decision on a paper as one of the following four conditions:
 1. Accept without revision
 2. Accept with minor revision
 3. Encourage to resubmit with major revision
 4. Reject

In case of acceptance with either minor or major revisions, the authors will be advised to revise the manuscript according to the reviewers' comments.

INTERNATIONAL JOURNAL OF GEOMATE

(Geotechnique, Construction Materials & Environment)

ISSN: 2186-2982(Print), 2186-2990(Online)

Paper Submission Guidelines:

- The submitted manuscript should be prepared using the formatted template of the manuscripts.
- Download the Manuscript Formatting Template (Paper Template) from the “Paper Template- Copyright menu” of <http://www.gi-j.com>.
- The paper to be submitted adheres to the rules and guidelines given in “Paper Template”.
- The paper should be written in English according to the “Paper Template”.
- The page limit is 8 pages for ordinary paper and 10 pages for invited paper.
- The references inside the text and in the bibliographic list should follow the formats as per the “Paper Template”.
- All Figures, Graphs and Tables must follow the font-style of the text. Ensure clear and good quality picture in the first submission.
- Selected papers from GEOMATE Conference Presentation will be reprinted in the journal with nominal charges based on the agreement of the authors.
- Accepted papers which were not presented in GEOMATE Conference need publication charges of 40000yen. GEOMATE members will be honored 50% discount.
- Any page or fraction thereof exceeding page limit will be charged 10000yen per page.
- Submission method: Submit full paper online using "Paper Submission" menu. It is recommended to send the full paper by E-mail attachment also to Editors-in-Chief [geomate@gi-j.com] along with "Authors Information" indicated in the paper submission form.
- Copyright release form is to be e-mailed separately along with paper submission. Download it from the “Copyright Menu” from the journal web page.
- The journal will also be printed in hard copies in two volumes per year. Corresponding author is entitled to receive one volume of the published journal free of charge. It becomes available at cost for libraries and any interested parties.
- For any questions: Contact us [geomate@gi-j.com].

Membership Fees: Regular Member 10,000yen/year; Life Member 50,000yen only.

Membership Benefits:

- Receive Membership ID/Card
- Use M.G. or L.M.G. after your name (M=Member, G=Geomate, L=Life)
- Be involved in GEOMATE technical committees and activities
- Receive Journal of GEOMATE and be up-to-date on the current development in the field
- Priority right to participate in international conferences with 20% discount
- 50% discount for Journal paper publication
- Vote in the election of GEOMATE officers
- Access to the Journal webpage

Membership Application/Paper Submission Form (send the related items below by e-mail attachments):

- Full Name:
- Title/Position (check one): Prof. A/Prof. Dr. Mr. Ms.
- Membership Category (check one): Regular Member Life Member Others
- Address:
 - Tel & Fax:
- E-mail (co-authors email separated by comma):
- Research Area (check one): Geotechnique Construction Materials Environment Others
- Paper Title:
 - Abstract:
- Type of Paper (check one): Original Paper Review Paper Research Report Others
- Recommend Reviewer 1 (Name, E-mail & Affiliation):
- Recommend Reviewer 2 (Name, E-mail & Affiliation):
- Recommend Reviewer 3 (Name, E-mail & Affiliation):
- Upload Full Paper in www.gi-j.com or Send by E-mail Attachments to geomate@gi-j.com

INTERNATIONAL JOURNAL OF GEOMATE

(Geotechnique, Construction Materials & Environment)

ISSN: 2186-2982(Print), 2186-2990(Online)

STATEMENT ON PUBLICATION ETHICS AND PUBLICATION MALPRACTICE (1/2)

The International Journal of GEOMATE is a double blind peer-reviewed journal. All parties involved in the act of publishing an article for this journal, i.e.: the editors, the author, the peer-reviewers and the publisher must follow the ethical behavior indicated in the COPE's Best Practice Guidelines for Journal Editors. In order to warrant high-quality scientific publications, public trust in scientific findings, and that people receive credit for their ideas, the ethical standards for publication are followed.

DUTIES OF EDITORS

Decision on the Publication of Article: Based on the double blind peer review of a paper, the Chief Editor and the Associate Editor are responsible for deciding which of the articles accepted for publication. Neither the Chief Editor nor the Associate Editor have the authority to influence the reviewers who are conducting the blind review of the articles submitted for peer review. The Chief Editor and the Associate Editor may be guided by the policies of the journal's Editorial Board and subjected to such legal requirements regarding libel, copyright infringement and plagiarism.

Honest Play: Manuscripts submitted to GEOMATE shall be exclusively evaluated based mainly on their intellectual quality and significance. GEOMATE will not give any consideration on authors' race, gender, sexual orientation, religious beliefs, ethnic origin, citizenship, or political philosophy.

Confidentiality: The Chief Editor, the Associate Editor and any editorial staff must not disclose any information about a submitted manuscript to anyone other than the corresponding author, reviewers, potential reviewers, other editorial advisers, and the publisher.

Disclosure and Conflicts of Interest: Unpublished materials disclosed in a submitted manuscript must not be used by anyone who has a view of the manuscript (while handling it) in his or her own research without the express written consent of the author.

DUTIES OF REVIEWERS

Contribution of Double Blind Peer Review: Any identifying information will be stripped out from the submitted paper so that the reviewers do not know any information about the authors and vice versa i.e.: reviewers' comments to the editors are confidential and before passing on to the authors, it will be made anonymous. The Double Blind Peer review assists the reviewers in making editorial decisions, while editorial communications with the author may also assist the author in improving the manuscript. The names of the reviewers known only to the Chief Editor and the Associate Editor and it remains strictly confidential to authors.

Punctuality: Any selected referee who feels unqualified to review the assigned manuscript or unable to provide a prompt review should notify the Chief Editor and the Associate Editor and excuse himself/herself from the review process.

Confidentiality: Private information or ideas obtained through double blind peer review must be kept confidential and not used for personal advantage. Manuscripts received for review must be treated as confidential documents. Without any authorization by the Chief Editor and the Associate Editor, the information of the submitted manuscript must not be shown to, or discussed with, others.

Standards of Objectivity: There shall be no personal criticism of the author. Reviewers should express their views clearly with supporting arguments and reviews should be conducted objectively.

Acknowledgment of Sources: Authors should cite relevant references and corresponding citation if any statement in the submitted paper had been previously published or reported elsewhere. Reviewers should identify relevant published work that has not been cited by the authors. If a reviewer finds any substantial similarity or overlap between the submitted manuscript and any other published works, s/he should inform to the Chief Editor/Associate Editor's.

Conflict of Interest: In any reviewers find that the submitted manuscript has conflicts of interest resulting from competitive, collaborative, or other relationships or connections with any of the authors, companies, or institutions, s/he should not review that manuscripts and notify to the Chief Editor/Associate Editor's promptly.

DUTIES OF AUTHORS

Reporting Standards: Authors of papers of original research should present an accurate account of the work performed as well as an objective discussion of its significance. Underlying data should be represented accurately in the paper. A manuscript should contain sufficient detail and references to permit others to replicate the work. Fraudulent or knowingly inaccurate statements constitute unethical behavior and are unacceptable.

Data Access and Retention: Authors may be asked to provide the raw data in connection with a paper for editorial review, and should be prepared to provide such data for public access or for access to the readers of the journal.

Originality and Plagiarism: The authors should ensure that they have written entirely original works, and if the authors have used the work and/or words of others, this must be appropriately cited or quoted. All papers published by International Journal of GEOMATE are committed to publishing only original material, i.e., material that has neither been published elsewhere, nor is under review elsewhere. Paper that are found to have been plagiarized from a manuscript by other authors, whether published or unpublished, will incur plagiarism sanctions.

INTERNATIONAL JOURNAL OF GEOMATE

(Geotechnique, Construction Materials & Environment)

ISSN: 2186-2982(Print), 2186-2990(Online)

STATEMENT ON PUBLICATION ETHICS AND PUBLICATION MALPRACTICE (2/2)

Acknowledgment of Sources: Proper acknowledgment of the work of others must always be given. Authors should cite publications that have been influential in determining the nature of the reported work.

Manipulation of Citations: Submitted papers that are found to include citations whose primary purpose is to increase the number of citations to a given author's work, or to articles published in a particular journal, will incur sanctions for manipulation of citations.

Falsification and Fabrication: Submitted papers that are found to have either falsified or fabricated numerical/experimental results, including the manipulation of images, will incur data fabrication and falsification sanctions.

Authorship: The authorship of a paper should be limited to those who have made a significant contribution to the conception, design, execution, or interpretation of the reported study. All those who have made significant contributions should be listed as co-authors. Where there are others who have participated in certain substantive aspects of the research project, they should be acknowledged or listed as contributors.

Scientific Contribution: All listed authors must have made a significant scientific contribution to the research in the manuscript and approved all its claims. It is important to list everyone who made a significant scientific contribution, including students and laboratory technicians.

Corresponding Author: Corresponding Author is the author responsible for communicating with the journal for publication. The corresponding author should ensure that all appropriate co-authors and no inappropriate co-authors are included on the paper, and that all co-authors have seen and approved the final version of the paper and have agreed to its submission for publication.

Acknowledgment of Funding Sources: Funding sources for the research reported in the manuscript should be duly acknowledged after the conclusion and before the list of references.

Disclosure and Conflicts of Interest: All sources of financial support for the project or any substantive conflict of interest that might be interpreted to influence the results of the paper should be disclosed.

Fundamental Errors in Published Works: It is the author's responsibility to promptly notify the Chief Editor/Associate Editor if s/he discovers a significant error or inaccuracy in his/her own published work to retract or correct the paper.

Redundant, Concurrent or Multiple Publications: An author should not in general publish manuscripts describing essentially the same research in more than one journal or primary publication. Manuscripts that are found to have been published elsewhere, or to be under review elsewhere, will incur duplicate submission/publication sanctions. If authors have used their own previously published work, or work that is currently under review, as the basis for a submitted manuscript, they are required to cite the previous work and indicate how their submitted manuscript offers novel contributions beyond those of the previous work. Submitting the same manuscript to more than one journal concurrently constitutes unethical publishing behavior and is unacceptable. Redundant publications involve the inappropriate division of study outcomes into several articles.

SANCTIONS

In the event that there are documented violations of any of the above mentioned policies in any journal, regardless of whether or not the violations occurred in a journal published by GEOMATE, the following sanctions will be applied:

- *Immediate rejection of the infringing manuscript.*
- *Immediate rejection of every other manuscript submitted to GEOMATE by any of the authors of the infringing manuscript.*
- *Prohibition against all of the authors for any new submissions to GEOMATE, either individually or in combination with other authors of the infringing manuscript, as well as in combination with any other authors. This prohibition will be imposed for a minimum of five years.*
- *Prohibition against all of the authors from serving on the Editorial Board of the International Journal of GEOMATE*

In cases where the violations of the above policies are found to be particularly outrageous, the publisher reserves the right to impose additional sanctions beyond those described above.

INTERNATIONAL JOURNAL OF GEOMATE

ISSN: 2186-2982(Print), 2186-2990(Online)

Vol.8, No.1, Serial 15

NUMERICAL ANALYSIS OF INFILTRATION INTO PERVIOUS CONCRETE-BASE SYSTEMS by Bertrand Teodosio, Jaehun Ahn and Hyun-Suk Shin	1117-1122
INTERACTION ANALYSIS FOR OIL STORAGE TANK ON MARINE CLAY by Pallavi Badry and Neelima Satyam D.	1123-1129
AMMONIA REMOVAL CHARACTERISTICS OF POROUS CONCRETE WITH ZEOLITE FOR ENHANCING SELF-PURIFICATION ABILITY IN RIVER SYSTEM by Fumitake Nishimura, Toshio Yamada, Motohiro Tanaka, Hirofumi Kassai and Michiko Masuda	1130-1137
DESIGN DROUGHTS: A NEW PLANNING TOOL FOR ECOSYSTEM REHABILITATION by Devanmini Halwatura, Alex M. Lechner and Sven Arnold	1138-1142
SLOPE STABILITY AND ROCKFALL HAZARD ANALYSIS IN OPEN PIT ZINC MINE by Maged Almandalawi, Greg You, Peter Dahlhaus, Kim Dowling and Mohannad Sabry	1143-1150
DETERMINATION OF SLIP SURFACES IN FRACTURE ZONE LANDSLIDES USING ORIENTED BOREHOLE CORE SAMPLES by Tsunataka Furuya and Jing-Cai Jiang	1151-1158
ENGINEERING PROPERTIES OF BLACK COTTON SOIL-DOLIME MIX FOR ITS USE AS SUBBASE MATERIAL IN PAVEMENTS by S. Patel and J. T. Shahu	1159-1166
NUMERICAL ANALYSIS ON THE EFFECT OF JET GROUT PILES ON AN EXCAVATION LOCATED IN AN URBAN AREA by Akula Pavan, Thiruvengadam Tamilmani	1167-1171
TEMPERATURE EFFECTS ON GEOTECHNICAL AND HYDRAULIC PROPERTIES OF BENTONITE HYDRATED WITH INORGANIC SALT SOLUTIONS by H. M. A. Rashid, K. Kawamoto, T. Saito, T. Komatsu, and P. Moldrup	1172-1179
UPTAKE OF ADVANCED AND SUSTAINABLE ENGINEERING MATERIALS IN CIVIL INFRASTRUCTURE PROJECTS by David S Thorpe	1180-1185
A COMPARATIVE STUDY ON THE RESISTANCES OF BUCKET FOUNDATION IN SAND WITH DIFFERENT INSTALLATION METHODS by Ju-Hyung Lee, Jin-Ung Do and Sung-Ryul Kim	1186-1189
SIMULATION OF REACTIVE GEOCHEMICAL TRANSPORT PROCESSES IN CONTAMINATED AQUIFERS USING SURROGATE MODELS by Hamed Koochpayehzadeh Esfahani and Bithin Datta	1190-1196
APPLICATIONS OF INNOVATIVE MATERIALS FOR PERFORMANCE IMPROVEMENT OF FLEXIBLE PAVEMENT OVER EXPANSIVE SUBGRADE by Ravin M. Tailor and Dr. Navin C. Shah	1197-1202
REMOVAL OF CESIUM FROM SEA SLUDGE THROUGH DECOMPOSITION OF ORGANIC MATTER WITH AQUEOUS HYDROGEN PEROXIDE by Hirotsuke Hirano, Takeshi Toyama, Nobuyuki Nishimiya and Kyoichi Okamoto	1203-1206
ASSESSMENT OF HUMAN RISKS POSED BY DEADLY DEBRIS FLOW IN THE WENCHUAN EARTHQUAKE AREA by Shuai Zhang and Limin Zhang	1207-1211
SEEPAGE FLOW-STABILITY ANALYSIS OF THE RIVERBANK OF SAIGON RIVER DUE TO RIVER WATER LEVEL FLUCTUATION by A. Oya, H.H. Bui, N. Hiraoka, M. Fujimoto, R. Fukagawa	1212-1217

INTERNATIONAL JOURNAL OF GEOMATE

(Geotechnique, Construction Materials & Environment)

ISSN: 2186-2982(Print), 2186-2990(Online)

Vol.8, No.2, Serial 16

SEISMIC RESPONSES OF SHORT GROUPED-PILES EMBEDDED IN LIQUEFIABLE SANDY SOILS DURING EARTHQUAKES by Chung-Jung Lee, Wen-Yi Hung, Chen-Hui Tsai, Yi-Chun Tu, Chin-Chen Huang, Yuan-Chieh Wu and Meng-Hsiu Hsieh	1218-1225
IDENTIFICATION OF SLOPES WITH HIGHER RISK TO SLOPE FAILURES BASED ON INFORMATION PROCESSING TECHNIQUES by Shinichi Ito, Kazuhiro Oda, Keigo Koizumi and Yohei Usuki	1226-1231
PERFORMANCE OF LIME-TREATED MARINE CLAY ON STRENGTH AND COMPRESSIBILITY CHARACTERISTICS by Nor Zurairahetty Mohd Yunus, Aminaton Marto, Faizal Pakir, Khairulanam Kasran, Mohd Akmal Azri Jamal, Siti Norafida Jusoh and Norliana Abdullah	1232-1238
EUTROPHICATED SEDIMENT REMEDIATION USING SHELL FRAGMENT AS REGIONAL UNUSED RESOURCES FOR NUTRIENTS ELUTION CONTROL by Kazuhito Murakami, Saki Agatsuma, Michio Gomyo and Akiko Inoue-Kohama	1239-1244
STUDY ON THE USE OF OBSTRUCTING OBJECTS TO DIFFUSE FLOOD WATER VELOCITY DURING ROAD CROSSING by Abdul Naser Abdul Ghani, Ahmad Hilmy Abdul Hamid and Nursriafitah Kasnon	1245-1249
WOOD-TILE QUALITY COMPOSITE BOARD FROM COCO COIR DUST AND UNPLASTICIZED POLYVINYL CHLORIDE WASTE MATERIALS by Hermie M. del Pilar, Monesse Andrea Z. Antonio, Maricar A. Ilagan and Julius E. Seva	1250-1256
BEHAVIOUR OF PRESTRESSED GEOTEXTILE-REINFORCED FINE SAND BED SUPPORTING AN EMBEDDED SQUARE FOOTING by Shailendra Kumar, C. H. Solanki and B. K. Pandey	1257-1262
SEASONAL VARIATION OF THE ALIEN PLANTS INVATION INTO RIVER ECOSYSTEM by Michiko Masuda and Fumitake Nishimura	1263-1270
The ROLE OF BLOCK RATIO AND LAYER THICKNESS ON ROCK SLOPES MOVEMENT STYLE by A. K. Alzo'ubi	1271-1277
COMPARATIVE ANALYSIS OF AIR POLLUTANT EMISSIONS AND LIFE CYCLE COSTS OF CONVENTIONAL CUT AND FILL ROAD CONSTRUCTION by Hideyuki Ito, Koichi Yamanaka, Shoma Nehashi, Atsushi Fukuda and Kunio Minegishi	1278-1282
DETERMINATION OF THE FREEZING EFFECT ON UNCONFINED COMPRESSION STRENGTH AND PERMEABILITY OF SATURATED GRANULAR SOILS by Burak Evirgen, M. Inanc Onur, Mustafa Tuncan and Ahmet Tuncan	1283-1287
A BEHAVIOURAL STUDY OF DYNAMIC SOIL STRUCTURE INTERACTION FOR PILED RAFT FOUNDATION WITH VARIABLE SUB SOILS BY TIME HISTORY FEM MODEL by S.J. Shukla, Desai A.K. and Dr. Solanki C.H.	1288-1292
OPTIMIZING WATER UTILIZATION FROM A WINDPUMP-DRIP IRRIGATION SYSTEM FOR HIGH-VALUE CROP PRODUCTION by Nguyen Thanh Nghi, Helen F. Gavino and Manuel Jose C. Regalado	1293-1299
PERFORMANCE AND PREDICTION OF DREDGED CLAY RECLAIMED LAND BY VACUUM CONSOLIDATION METHOD by Ikeda H., Kawano M., Kiyoyama T., Yamamoto S., Takase E., Katagiri M., Ohishi K. and Yoshifuku T.	1300-1307
REHABILITATION WORKS IN QUEENSLAND USING FOAMED BITUMINOUS STABILISATION by Lokanatham R. Logitharan, Kathirgamalingam Somasundaraswaran and Lothi M. Ramanujam	1308-1315
INFLUENCE OF FERTILIZATION ON NATIVE PLANTS AND EXOTIC PASTURE GRASSES ON THE FASCINATED LANDSLIDE SLOPES IN MIKURA-JIMA ISLAND, JAPAN by Teruo Arase and Tetsuo Okano	1316-1322
HEAVY METAL DESORPTION STUDIES ON THE ARTIFICIALLY CONTAMINATED AL-QATIF SOIL by Arif Ali Baig Moghal, Mosleh Ali Al-Shamrani and Waleed M Zahid	1323-1327
BRIDGE SCOUR MONITORING BY COUPLING FACTOR BETWEEN READER AND TAG ANTENNAS OF RFID SYSTEM by M. I. Ibrahimy and S. M. A. Motakabber	1328-1332
