(Geotechnique, Construction Materials & Environment) ISSN: 2186-2982(Print), 2186-2990(Online)

Founded in 2011, *The "International Journal of GEOMATE*" is a Scientific Journal of the GEOMATE International Society that encompasses a broad area in Geotechnique, Construction Materials, and Environment. The key objective of this journal is to promote interdisciplinary research from various regions of the globe. The editorial board of the journal is comprised of extensively qualified researchers, academicians, scientists from Japan, and other countries of the world. It is a peer-reviewed journal that is published quarterly. All articles published in this journal are available online. Contributors may download the manuscript preparation template for submitting the paper or contact the Editors-in-Chief [editor@geomatejournal.com].

Aims and Scopes:

The journal aims to become an efficient means of publishing and distributing high-quality information from researchers, scientists, and engineers. The main scopes are as follows:

- Advances in Composite Materials
- Computational Mechanics
- Foundation and Retaining Walls
- Slope Stability
- Soil Dynamics
- Soil-Structure Interaction
- Pavement Technology
- Tunnels and Anchors
- Site Investigation and Rehabilitation
- Ecology and Land Development
- Water Resources Planning
- Environmental Management
- Earthquake and Tsunami Issues
- Safety and Reliability
- Geo-Hazard Mitigation
- Case History and Practical Experience
- Others

Review Policy:

- The paper which meets the editorial criteria will be assigned to at least two anonymous reviewers for peer review.
- Authors may recommend some reviewers however, Editors are entitled to consider them or not.
- The Editorial Board consists of an outstanding group responsible for the review process of the submitted manuscripts and will guarantee the quality of the publication.
- The manuscript will be published as soon as accepted, and all the modifications recommended by the reviewers are made.
- The review procedure is as strict as in the most prestigious journals, but publication time is minimized.
- Based on the reviewers' comments, the Editors will decide on a paper as one of the following four conditions:
- 1. Accept without revision
- 2. Accept with minor revision
- 3. Encourage to resubmit with major revision
- 4. Reject

In case of acceptance with minor or major revisions, the authors will be advised to revise the manuscript according to the reviewers' comments.

(Geotechnique, Construction Materials & Environment) ISSN: 2186-2982(Print), 2186-2990(Online)

Instruction to Author:

The manuscript to be submitted should be prepared using the manuscripts submission template.

Download the manuscript formatting template from the download files menu.

The manuscript to be submitted adheres to the rules and guidelines given in the manuscript template.

The manuscript should be written in English. A list of references must be translated into English if other languages (both should be noted).

The page limit is 8 pages for an ordinary manuscript and 10 pages for the invited manuscript.

The references inside the text and in the bibliographic list should follow the formats as per the manuscript template.

All figures, graphs, and tables must follow the font style of the text. Ensure clear and good-quality pictures in the first submission.

Selected manuscripts from "GEOMATE Conference Presentation" will be reprinted in the journal with nominal charges (40% discount of regular fees) based on the agreement of the authors.

Accepted papers which were not presented in the "GEOMATE Conference" need publication charges of 800 USD as regular fees. Any page or fraction exceeding the page limit will be charged 100 USD per page. The extra author fee is 100 USD/author if exceeding 5 authors.

This is required for its maintenance, such as managing article submission and peer review, typesetting, tagging and indexing of articles, hosting articles on dedicated servers, supporting sales and marketing costs to ensure global dissemination via different databases, and permanently preserving the published journal article.

Copyright: GEOMATE is required to obtain copyright of papers from authors for the term of copyright by signing and returning the publishing agreement.

Submission Method:

Submit full manuscript online using the "Submission" menu. We accept online submissions only.

Copyright release form to be E-mailed separately along with the manuscript submission. Download it from the "Download Files Menu".

Abolition of the printed version: Considering environmental conservation, the paper version has been discontinued since June 2016.

For any questions: Contact us [editor@geomatejournal.com].

Membership Fees: Regular Member 100USD/year; Life Member 900USD only.

Membership Benefits:

- Receive Membership ID/Card
- Use M.G. or L.M.G. after your name (M=Member, G=Geomate, L=Life)
- Be involved in GEOMATE technical committees and activities
- Be up-to-date on the current development in the field
- Priority right to participate in international conferences with 20% discount
- 20% discount for Journal paper publication
- Vote in the election of GEOMATE officers
- Access to the Journal webpage

Membership Application (send the related items below using the online form):

- Full Name:
 Title/Position (check one): □ Prof. □ A/Prof. □ Dr. □Mr. □Ms.
- Membership Category (check one): □ Regular Member □ Life Member □ Others
- Address:
- Tel & Fax:
- E-mail (co-authors e-mail separated by comma):
- Research Area (check one): □ Geotechnique □ Construction Materials □ Environment □ Others

STATEMENT ON PUBLICATION ETHICS AND PUBLICATION MALPRACTICE (1/2)

The International Journal of GEOMATE is a double-blind peer-reviewed journal. All parties involved in publishing an article for this journal, i.e., the editors, the author, the peer-reviewers, and the publisher, must follow the ethical behavior indicated in the COPE's Best Practice Guidelines for Journal Editors. In order to warrant high-quality scientific publications, public trust in scientific findings, and that people receive credit for their ideas, the ethical standards for publication are followed.

DUTIES OF EDITORS

<u>A decision on the Publication of Article</u>: Based on the double-blind peer review of a paper, the Chief Editor and the Associate Editor are responsible for deciding which articles are accepted for publication. Neither the Chief Editor nor the Associate Editor has the authority to influence the reviewers who are conducting the blind review of the articles submitted for peer review. The Chief Editor and the Associate Editor may be guided by the policies of the journal's Editorial Board and subjected to such legal requirements regarding libel, copyright infringement, and plagiarism.

<u>Honest Play:</u> Manuscripts submitted to GEOMATE shall be exclusively evaluated based mainly on their intellectual quality and significance. GEOMATE will not consider authors' race, gender, sexual orientation, religious beliefs, ethnic origin, citizenship, or political philosophy.

<u>Confidentiality:</u> The Chief Editor, the Associate Editor, and any editorial staff must not disclose any information about a submitted manuscript to anyone other than the corresponding author, reviewers, potential reviewers, other editorial advisers, and the publisher.

<u>Disclosure and Conflicts of Interest:</u> Unpublished materials disclosed in a submitted manuscript must not be used by anyone who has a view of the manuscript (while handling it) in his or her own research without the express written consent of the author.

DUTIES OF REVIEWERS

The contribution of Double-Blind Peer Review: Any identifying information will be stripped out from the submitted paper so that the reviewers do not know any information about the authors and vice versa, i.e., reviewers' comments to the editors are confidential and before passing on to the authors, it will be made anonymous. The Double-Blind Peer review assists the reviewers in making editorial decisions, while editorial communications with the author may also assist the author in improving the manuscript. The names of the reviewers are known only to the Chief Editor and the Associate Editor, and it remains strictly confidential to authors.

<u>Punctuality:</u> Any selected referee who feels unqualified to review the assigned manuscript or unable to provide a prompt review should notify the Chief Editor and the Associate Editor and excuse themselves from the review process.

<u>Confidentiality:</u> Private information or ideas obtained through double-blind peer review must be kept confidential and not used for personal advantage. Manuscripts received for review must be treated as confidential documents. Without any authorization by the Chief Editor and the Associate Editor, the information of the submitted manuscript must not be shown to or discussed with others.

<u>Standards of Objectivity:</u> There shall be no personal criticism of the author. Reviewers should express their views clearly with supporting arguments, and reviews should be conducted objectively.

<u>Acknowledgment of Sources:</u> Authors should cite relevant references and corresponding citations if any statement in the submitted paper had been previously published or reported elsewhere. Reviewers should identify relevant published work that the authors have not cited. If a reviewer finds any substantial similarity or overlap between the submitted manuscript and any other published works, s/he should inform the Chief Editor/Associate Editors.

<u>Conflict of Interest:</u> In any reviewers find that the submitted manuscript has conflicts of interest resulting from competitive, collaborative, or other relationships or connections with any of the authors, companies, or institutions, s/he should not review that manuscripts and notify the Chief Editor/Associate Editors prompt.

DUTIES OF AUTHORS

<u>Reporting Standards:</u> Authors of papers of original research should present an accurate account of the work performed and an objective discussion of its significance. Underlying data should be represented accurately in the paper. A manuscript should contain sufficient detail and references to permit others to replicate the work. Fraudulent or knowingly inaccurate statements constitute unethical behavior and are unacceptable.

<u>Data Access and Retention</u>: Authors may be asked to provide the raw data in connection with a paper for editorial review and should be prepared to provide such data for public access or access to the journal's readers.

<u>Originality and Plagiarism:</u> The authors should ensure that they have written entirely original works. If the authors have used the work and words of others, this must be appropriately cited or quoted. All papers published by the International Journal of GEOMATE are committed to publishing only original material, i.e., material that has neither been published elsewhere nor is under review elsewhere. The paper that is found to have been plagiarized from a manuscript by other authors, whether published or unpublished, will incur plagiarism sanctions.

(Geotechnique, Construction Materials & Environment) ISSN: 2186-2982(Print), 2186-2990(Online)

STATEMENT ON PUBLICATION ETHICS AND PUBLICATION MALPRACTICE (2/2)

<u>Acknowledgment of Sources:</u> Proper acknowledgment of the work of others must always be given. Authors should cite publications that have been influential in determining the nature of the reported work.

<u>Manipulation of Citations</u>: Submitted papers that are found to include citations whose primary purpose is to increase the number of citations to a given author's work or to articles published in a particular journal will incur sanctions for manipulating citations.

<u>Falsification and Fabrication</u>: Submitted papers that are found to have either falsified or fabricated numerical/experimental results, including the manipulation of images, will incur data fabrication and falsification sanctions.

<u>Authorship:</u> The authorship of a paper should be limited to those who have made a significant contribution to the conception, design, execution, or interpretation of the reported study. All those who have made significant contributions should be listed as co-authors. Where there are others who have participated in certain substantive aspects of the research project, they should be acknowledged or listed as contributors.

<u>Scientific Contribution</u>: All listed authors must have made a significant scientific contribution to the research in the manuscript and approved all its claims. It is important to list everyone who made a significant scientific contribution, including students and laboratory technicians.

<u>Corresponding Author</u>: Corresponding Author is the author responsible for communicating with the journal for publication. The corresponding author should ensure that all appropriate co-authors and no inappropriate co-authors are included in the paper. All co-authors have seen and approved the final version of the paper and have agreed to its submission for publication.

<u>Acknowledgment of Funding Sources:</u> Funding sources for the research reported in the manuscript should be duly acknowledged after the conclusion and before the list of references.

<u>Disclosure and Conflicts of Interest:</u> All sources of financial support for the project or any substantive conflict of interest that might be interpreted to influence the results of the paper should be disclosed.

Fundamental Errors in Published Works: The author must promptly notify the Chief Editor/Associate Editor if s/he discovers a significant error or inaccuracy in their published work to retract or correct the paper.

Redundant, Concurrent, or Multiple Publications: An author should not, in general, publish manuscripts describing essentially the same research in more than one journal or primary publication. Manuscripts that are found to have been published elsewhere, or to be under review elsewhere, will incur duplicate submission/publication sanctions. If authors have used their own previously published work or work that is currently under review as the basis for a submitted manuscript, they are required to cite the previous work and indicate how their submitted manuscript offers novel contributions beyond those of the previous work. Submitting the same manuscript to more than one journal concurrently constitutes unethical publishing behavior and is unacceptable. Redundant publications involve the inappropriate division of study outcomes into several articles.

SANCTIONS

In the event that there are documented violations of any of the above-mentioned policies in any journal, regardless of whether or not the violations occurred in a journal published by GEOMATE, the following sanctions will be applied:

- ${\bf \cdot} Immediate\ rejection\ of\ the\ infringing\ manuscript.$
- •Immediate rejection of every other manuscript submitted to GEOMATE by any of the authors of the infringing manuscript.
- •The prohibition against all of the authors for any new submissions to GEOMATE, either individually or in combination with other authors of the infringing manuscript, as well as in combination with any other authors. This prohibition will be imposed for a minimum of five years.
- Prohibition against all of the authors from serving on the Editorial Board of the International Journal of GEOMATE

 In cases where the violations of the above policies are found to be particularly outrageous, the publisher reserves the right to impose additional sanctions beyond those described above.

COMPARATIVE STUDY OF FLEXURAL PERFORMANCE OF GEOPOLYMER AND PORTLAND CEMENT CONCRETE BEAM USING FINITE ELEMENT ANALYSIS Muhammad Sigit Darmawan, Yuyun Tajunnisa, Priyo Suprobo, Wahyuniarsih Sutrisno, and Muhammad Wildan Aziz	1-9
SUSTAINABLE IMPROVEMENT OF BENTONITE CLAY CHARACTERISTICS BY ADDING PULVERIZED WASTE GLASS Madhat Shakir Al-Soud , Sabah Hassan Fartosy , Aqeel Raheem Jabur, Muhannd Waleed Majeed, Huda M. Madhloom and Nadhir Al-Ansari	10-19
UTILIZATION OF COIR FIBERS TO IMPROVE THE BEARING CAPACITY AND TENSILE STRENGTH OF EXPANSIVE CLAY Anita Widianti, Angesta Artha Bhakti Negara, Tjokro Seigia Elmino and Lazuardi Ramadhani	20-26
THE OPTIMIZATION OF OPERATIONAL PATTERNS FOR THE CIPANUNJANG-CILEUNCA CASCADE RESERVOIR USING CONTINUOUS MODELS Mariana Marselina, Arwin Sabar and Arini Mushfiroh	27-36
THE PROMISING POTENTIAL OF SIDOARJO HOT MUD AS ADDITIONAL MATERIAL FOR CONCRETE LINING PRODUCTION Lies Kurniawati Wulandari, I Wayan Mundra, Maranatha Wijayaningtyas	37-44
DEBRIS FLOW HAZARD ANALYSIS TOWARD THE IMPLEMENTATION OF MITIGATION MEASURES Teuku Faisal Fathani, Wahyu Wilopo, Anisa Nur Amalina and Avantio Pramaditya	45-56
MACHINE LEARNING MODELS TO GENERATE A SUBSURFACE SOIL PROFILE: A CASE OF MAKATI CITY, PHILIPPINES Joenel Galupino and Jonathan Dungca	57-64
THE MOST SUITABLE SEISMIC STRUCTURAL SYSTEMS IN HIGH-RISE REINFORCED CONCRETE BUILDINGS Odai Hasan Fawzi Masheh, and Mohammed Salman Al-lami	65-72
PERFORMANCE OF A WIRELESS SENSOR ADOPTED IN MONITORING OF CONCRETE STRENGTH Yelbek Utepov, Assel Tulebekova, Aliya Aldungarova, Shyngys Zharassov and Yerlan Sabitov	73-80
DYNAMICS OF PARK USERS DURING COVID-19 PANDEMIC: A CASE STUDY OF SHIKISHIMA PARK IN MAEBASHI Xingyu Tao, Shinya Tsukada, Tetsuo Morita and Toshikazu Nishio	81-88
ANTIBACTERIAL ACTIVITY OF LIQUID SMOKE POWDER FROM RICE HUSK Muriady, Hesti Meilina and Muhammad Faisal	89-99
EVALUATION OF MUD SETTLING POND PERFORMANCE IN A SALT POND ENVIRONMENT IN LOSARANG DISTRICT, REGENCY OF INDRAMAYU, WEST JAVA, INDONESIA Harman Ajiwibowo, Munawir B. Pratama	97-103
AN ASSESSMENT OF FLOOD HAZARDS DUE TO THE BREACH OF THE MANGGARAI FLOOD GATE Tri Nugraha Adi Kesuma, Muhammad Syahril Badri Kusuma, Mohammad Farid, Arno Adi Kuntoro, and Harkunti Pertiwi Rahayu	104-111
EXPERIMENTAL INVESTIGATION ON THE ULTIMATE CAPACITY OF RECTANGULAR REINFORCED HYBRID CONCRETE COLUMNS UNDER AXIAL LOAD Alyaa Hussein Mohammed, Layla Ali Ghalib Yassin and Marawan Mohammed Hamid	112-118
WATER BALANCE ANALYSIS AND ZERO ARTIFICIAL RUN-OFF (ZARo) CONCEPT IN METROPOLITAN BANDUNG AREA, Imam Priyono, Deny Juanda Puradimaja, Budi Sulistijo, Muhammad Syahril Badri Kusuma	119-126

(Geotechnique, Construction Materials & Environment) ISSN: 2186-2982(Print), 2186-2990(Online)

INFLUENCE OF HOOKED-END STEEL FIBERS ON FLEXURAL BEHAVIOR OF STEEL FIBER REINFORCED SELF-COMPACTING CONCRETE (SFRSCC) Saloma and Faiz Sulthan	127-135
PREDICTION OF BLAST-INDUCED THE AREA OF THE TUNNEL FACE IN UNDERGROUND EXCAVATIONS USING FUZZY SET THEORY ANFIS AND ARTIFICIAL NEURAL NETWORK ANN Chi Thanh Nguyen, Ngoc Anh Do, Van Vi Pham, Phuong Thuy Nguyen and Gospodarikov Alexandr	136-143
EVOLUTION STUDY OF THE PAVEMENT STRUCTURAL INDICATOR BASED ON EVENNESS AND DEFLECTION RESULTS USING A GIS TOOL MAPPING Mohammed Amine Mehdi, Toufik Cherradi, Azzeddine Bouyahyaoui, Said El Karkouri and Ahmed Qachar	144-153
MULTI-OBJECTIVE OPTIMIZATIONS OF HYDROELECTRIC EXPLOITATION USING DYNAMIC PROGRAMS IN CITARUM CASCADE RESERVOIRS Eddy Iskandar Muda Nasution, Arwin Sabar, Indah Rachmatiah Siti Salami and Dyah Marganingrum	154-161
EFFECTS OF POLYETHYLENE TEREPHTHALATE (PET) PLASTICS ON THE MECHANICAL PROPERTIES OF FLY ASH CONCRETE Mary Ann Adajar and Irene Olivia Ubay-Anongphouth	162-167

(Geotechnique, Construction Materials & Environment) ISSN: 2186-2982(Print), 2186-2990(Online)

VERTICAL DYNAMIC RESPONSE OF A FRICTION PILE IN MULTILAYERED SOIL Hiep Toan Luong and Hien Manh Nghiem	1-10
ASSESSMENT OF VULNERABILITY INDEX OF WATER RESOURCES TOWARDS CLIMATE VARIABILITY IN UPPER THE CITARUM WATERSHED, WEST JAVA, INDONESIA Mariana Marselina, Arwin Sabar and Siti Ai Nurhayati	11-18
IMPROVEMENT IN MECHANICAL PROPERTIES OF FLEXIBLE POLY(L-LACTIDE)-b-POLYETHYLENE GLYCOL-b-POLY(L-LACTIDE) BIOPLASTIC BY MELT BLENDING WITH BORON NITRIDE Theeraphol Phromsopha and Yodthong Baimark	19-24
THERMAL PERFORMANCE OF THE CLEAR BLOCK WALL FOR VENTILATION Thana Ananacha	25-31
GEOTECHNICAL INVESTIGATION OF ARID CLIMATE SOILS FOR IMPLEMENTING SOLAR TRACKERS Abdulla AL-Rashidi	32-39
FLOW – COMPOSITE HYDRAULIC STRUCTURE – LONGITUDINAL OBSTACLE INTERACTION Ihsan Abdulkareem Abdulhussein, Rafi Mohammed Qasim, Alya Aqeel Mohammed and Qusay Abdulrazzaq Maatooq	40-49
PROPERTIES OF STRUCTURAL LIGHTWEIGHT HIGH STRENGTH SELF-COMPACTING CONCRETE Shahd Hesham Mohamed, Ahmed Gomaa Asran, Mohamed Taha Noman and Mohamed AbdelAzim	50-60
ROAD PAVEMENT USING GEOSYNTHETICS ON THE TERRITORY OF RURAL SETTLEMENTS Tymarkul Muzdybayeva, Onggarbek Alipbeki , Amanzhol Chikanayev and Sholpan Abdykarimova	61-68
ANALYSIS OF THE ROCK LAYER CONTACT USING THE GRAVITY DATA OF SATELLITE IMAGERY AND RESISTIVITY METHOD Muwardi Sutasoma, Adi Susilo, Sunaryo, Eko Andi Suryo and Suhayat Minardi	69-76
IDENTIFICATION OF MANGROVE CHANGES IN THE MAHAKAM DELTA IN 2007-2017 USING ALOS/PALSAR AND LANDSAT Kuswaji Dwi Priyono, Aditya Saifuddin, Ferman Setia Nugroho and Jumadi	77-84
DEVELOPING A MODEL OF SUSTAINABLE CONSTRUCTION FOR CONDOMINIUM PROJECTS IN DEVELOPING COUNTRIES; CASE OF INDONESIA Aditya Sutantio, Nadjadji Anwar, I Putu Artama Wiguna and Erma Suryani	85-94
SPATIAL DISTRIBUTION OF LANDSLIDE SUSCEPTIBILITY IN NEW ROAD CONSTRUCTION MENGWITANI- SINGARAJA, BALI-INDONESIA: BASED ON GEOSPATIAL DATA I Wayan Diara, R Suyarto and Moh Saifulloh	95-103
COMPARATIVE STUDY OF THE BEHAVIORS OF SKIRTED FOUNDATIONS OF DIFFERENT SHAPES Kyrillos Magdy, Ayman Altahrany and Mahmoud Elmeligy	104-111
THEORETICAL MODEL FOR ANCHORING A PARTICLE OF PREHEATED SAND INTO AN ICE FORMATION Abdy Kiyalbayev, Saniya Kiyalbay, Temirkhan Tolkynbayev and Gulshat Tleulenova	112-120
SUBSURFACE MAPPING OF FAULT STRUCTURE IN THE WEH ISLAND BY USING A 3D DENSITY OF GLOBAL GRAVITY Faisal Abdullah, Muhammad Yanis, M. Haikal Razi, Muzakir Zainal and Nazli Ismail	121-128

(Geotechnique, Construction Materials & Environment) ISSN: 2186-2982(Print), 2186-2990(Online)

USING CEMENT AND FIBERS AS ADDITIVES FOR LIQUEFACTION MITIGATION OF SANDY SOILS Ahmed Elzamel, Ayman Altahrany and Mahmoud Elmeligy	129-136
THE EFFECT OF GYPSUM TREATED CLAY AS A ROAD SUBGRADE MATERIAL Hasmar Halim, Nursamiah, Abdul Fattah and Zubair Saing	137-144
VERIFICATION AND VALIDATION OF THE PILE DESIGN METHOD WITH CONSIDERATION OF DOWN DRAG Hoa Van Cao and Tuan Anh Nguyen	145-152
DISCRETE ELEMENT ANALYSIS OF SOIL-PIPE INTERACTION SUBJECTED TO NORMAL AND REVERSE FAULTING Yusuke Ono	153-162
FLOATING AUTOMATED FACTORY SYSTEM FOR EFFECTIVE UTILIZATION OF SEABED RESOURCES AND REDUCTION OF GREENHOUSE GAS EMISSIONS Shinji Sato and Ryo Deyama	163-170
IDENTIFICATION OF TSUNAMI DEPOSIT AT MEULABOH, ACEH (INDONESIA) USING GROUND PENETRATING RADAR (GPR) Muhammad Syukri, Sabrian Tri Anda, Muksin Umar, Ella Meilianda, and Rosli Saad, Zul Fadhli and Rini Safitri	171-178
WASTE ACCUMULATION AND GEOECOLOGICAL ASSESSMENT OF THE TERRITORIES AROUND THE LANDFILLS IN KOKSHETAU Aigul Kurmanbayeva, Zulfiya Bayazitova, Awwad Talal, Anuarbek Kakabayev and Sayagul Zhaparova	179-185
